Conclusion Arrived at by the Sub-Committee.

Washington, Dec. 12.-The sub-committee of the Republican national com-mittee appointed to consider the ques-tion of representation in the national convention from Porto Rico, held a session this afternoon and instructed the representatives from Porto Rico in the manner of holding a convention in that island for the purpose of select-ing delegates to the national conven-tion. The Porto Ricans were informed that the national committee has no relations with the Servian court, for the present at least, is that the social season is about to begin in Belgrade and King Peter has issued invitations jurisdiction over membership in the national convention. They were ad-vised to send two delegates and two and King Peter has issued invitations to balls and entertainments and other festivities as usual at all European capitals. It is stated that the ministers accredited to Belgrade have never cased earnestly to advise King Peter to disassociate himself from the murderers of his predecessor and the latter's wife, and to demand their punishment. The Servian king disregards this advice and did not even answer the notes. Matters reached a crisis when it was evident that King Peter intended to invite the regicide ministers, shake hands with them and dance with their wives. Germany according-
